EXPERIENCE

DraftKings

Software Engineer

Boston, MA (Remote)

June 2023–Present

- Plan and ship customer-facing features for Pick6, DraftKings' peer-to-peer daily fantasy sports product, including:
 - NFL live markets and an immersive live-event experience that drove significant incremental revenue.
 - Early payouts that increased winnings reinvestment.
- Reduced the Pick6 homepage bundle size by 50%, improving page-load latency by 30%, and optimized animations to triple worst-case frame rates.
- Diagnose and resolve production incidents through an on-call rotation using Datadog, New Relic, OpenLens, and Kibana.
- Build MCP servers, developer tools, and agentic workflows that reduce customer-support case handling time.

Medtronic

Software Design Extern

Minneapolis, MN

September 2022–May 2023

- Built and deployed an on-premises dashboard for monitoring a battery-testing system.

Principal Financial Group

Software Engineer Intern

Des Moines, IA

May 2022–December 2022

- Built a production ASP.NET web application for managing file-sharing workflows.
- Designed and refactored Spring Boot REST APIs with a focus on performance and usability.

PROJECTS

RaidGuessr

raidguessr.dev

- Develop and operate a daily game that turns MMO raid replays into interactive puzzles for 1,000+ monthly active users.
- Built the replay experience around HTML canvas using React Router, with AWS infrastructure provisioned through Terraform and GitHub Actions for CI/CD.

ThreeSharp

github.com/anthonydibi/ThreeSharp

- Built a virtual-reality application with Unity, OpenXR, and Roslyn that visualizes relationships within C# codebases.

EDUCATION

University of Minnesota

B.S. in Computer Science, GPA: 3.97

Minneapolis, MN

May 2023

SKILLS

Languages: TypeScript, JavaScript, C#, Python, Java, SQL

Frontend: React, React Router (Remix), Next.js, Blazor, HTML, CSS, Tailwind CSS, WebGL

Backend & Data: Node.js, .NET, PostgreSQL

Cloud & Infrastructure: AWS, Kubernetes, Helm, Terraform, GitHub Actions, Jenkins, Bamboo

Testing & Observability: Playwright, Vitest, Locust, Datadog, New Relic, Kibana

Applied AI: MCP servers, AI integrations, agentic workflows

INTERESTS

Cooking, board games, video games, cycling
